

Bradnam's
cavity
sliding doors

The ultimate view...

Ryan Designer Homes

A fusion of ingenuity and practicality

Bradnam's Cavity Sliding Doors will revolutionise how outdoor and entertainment areas are designed.

Unlike traditional 'entertainment doors' such as stacker doors or bi-fold doors, our **Cavity Sliding Doors** truly provide unobstructed views and access.

Seamlessly gliding out of sight, they don't have fixed or folded panels blocking the view or access from inside to the outside.

Features and Benefits

- Modern design suited for architecturally creative projects
- Multi-track systems enable solutions to almost any high-end application
- Clean finish and appearance thanks to concealed fixings
- Stylish handles are fitted with mortice locks for superior security
- High performance roller system ensures smooth sliding action
- Rounded and capped sections reduce the likelihood of curtains being torn by sharp edges

Available Configurations

Speak to a Bradnam's sales representative if screening is required. Large size door panels may be difficult to operate due to heavy weight.
